QUARTERLY NEWSLETTER

ON TARGET

The AM Javelin Register is a group of owners of AMERICAN MOTORS CORP. '68 – '74 JAVELINS

AMC Javelin

The AM Javelin is a true Muscle Car from the late sixties that was sent from America to Australia in unassembled form.

AMI (Australian Motor Ind.) built the Javelins in Melbourne using some local parts and manufacturing others to suit as required. The new price at that time was similar to the luxury cars such as Jaguar, and twice as much as the local Monaros and GTHO's.

ON TARGET

The Register publishes a quarterly Newsletter in March, June, September and December and offers all members access to any information at its disposal including workshop manuals.
